

LEAGUE COMPROMISE AGREED

BITTER DENUNCIATION OF WILSON ADMINISTRATION IN PLATFORM

Final Agreement On Proposed Planks of 1920 Republican Platform Reached By Special Steering Committee—Railroad Plank Inserted Urges Establishment Of Investigating Tribunal.

Chicago, June 10.—Final agreement upon all the proposed planks in the 1920 Republican platform except those touching the league of nations and the Mexican situation has been reached by the special steering committee of 13 and a "middle of the road" policy on the part of the party.

Bitter denunciation of the Wilson administration is the gist of the preamble to the platform, in which the question of a soldiers' bonus is confined to high praise of the work of the soldiers and a citation that "the present congress has appropriated generously for the disabled world war."

Defeat of Governor Allen's industrial court plank which was forecast yesterday was accomplished in the steering committee but the plank adopted on the other hand is not as broad as that demanded by Samuel Gompers and the American Federation of Labor in the hearing before the committee.

As regards the railroad and public utilities, the plank urges the establishment of a tribunal to investigate and make decisions to prevent tying up service. The decision of these tribunals should be "morally, but not legally binding." Tribunals should refuse to accept jurisdiction except for investigating purposes so long as service is interrupted, or men are on strike.

In regard to Mexico it seemed pretty certain the steering committee would get together on a plank which practically would endorse the report of Fall investigating committee which recommended the policing of Mexico until there is a return to normal conditions in the country. New Mexican interests also are insisting that the United States will recognize no government in Mexico which cannot give complete assurance of protection to foreigners.

Here are summaries of the most important agreed upon by the steering committee:

Agriculture—Approves right of farmers to form co-operative societies for marketing; co-ordination of water, rail and motor transportation and amendment of the farm loan act to permit better financing of tenants who wish to buy farms.

Taxation—Recommends tax laws "which do not excessively mulct the consumer, the substitution of simple for the complex laws and creation of a tax board to simplify income tax procedures without legal recourse. The plank points out that the Republicans will inherit a tremendous debt from the Wilson administration, including a floating debt of more than \$3,000,000,000 and adds that "an early reduction in the amount of needed revenue is not to be expected."

Economy—Pledges the party to a carefully planned readjustment to a peace time basis and a policy of rigid economy. "The plank points out that 'executive departments and other establishments in Washington actually record an increase subsequent to the armistice of 2,184 employees.' The Republican adherence to a real budget system then is reaffirmed.

High cost of living—Pledges the party to honest money and sound finance and real battling against the further inflation of currency by a deflation of currency, prevention of excessive profits, and an increased production and by the encouragement of purpose and private economy and thrift.

Industrial relations—Denies right to strike against the government but says rights of government employees must be safeguarded. Recognizes the right of collective bargaining and urges governmental initiative to prevent constantly recurring strikes which inflict losses on the entire community. Fails to mention Kansas idea of industrial court but declares against principal of compulsory arbitration in private industries. Urges better facilities for voluntary arbitration mediation and conciliation and urges establishment of governmental agencies to obtain such results.

Railroads—Opposes government ownership of railroads and of the Plumb plan of employees owning the roads. Endorses the Cummins-Eech bill and insists upon the guarantee of a fair return upon railroad securities.

Woman Suffrage—Urges Republican governors to get ratification of Nineteenth amendment.

Postal service—Condemns Democratic administration for failure to pay adequate wages to efficient and expert employees and destruction of efficiency of the postal service and the telegraph and telephone services while under governmental control.

Child labor—Approves rigid laws against child labor.

Liquor—Approves policy of party in standing by the constitution and the supreme court.

BUDGET FOR YEAR ABOUT BALANCED; SMALL DEFICIT

Secretary Houston Make Report On Conditions.

Washington, June 10. — Secretary Houston, writing to the bankers of the country, declared that the completed operations of the treasury for the fiscal year ending with this month "should show little, if any, deficit, the government having about balanced its budget, current receipts against current disbursements, for the first full fiscal year after the fighting stopped."

"Though the first quarter of the present fiscal year showed a deficit of about \$770,000,000," Mr. Houston said, "in the second quarter there was a surplus of over \$150,000,000, in the third quarter there was a surplus of nearly \$400,000,000, and the fourth quarter should also show a surplus. The total gross debt of the United States, which on June 30, 1919, amounted to nearly \$25,500,000,000, and on Aug. 31, 1919, amounted to nearly \$26,000,000,000, had been reduced on May 31, 1920, to less than \$25,000,000,000."

"The floating debt outstanding (bonds and tax certificates), which on June 3, 1919, amounted to over \$3,000,000,000, and on Aug. 31, 1919, to nearly \$4,000,000,000, had been reduced on May 31, 1920, to less than \$2,500,000,000."

DRY AGENT APPOINTED

Washington, June 10.—Appointment of John L. Considine as Supervising Federal Prohibition Agent for the Pacific Department was announced today by Prohibition Commissioner Kramer. Commissioner Kramer also announced that Lorin Handley President of the Board of Public Works of Los Angeles, soon would be appointed Prohibition Director for California. Mr. Considine at present is Chief Inspector in the office of Federal Prohibition Director of California.

a stronger tide, seemed not to disturb the Johnson managers. A conference of a dozen or more Johnson advisers, it was said, decided on a policy of attempting no trades or alliances until the start of a break from Wood or Lowden, for which they hope. Their strategy, it was explained, was to leave the Wood and Lowden forces to carry on their own contest and leave the Johnson forces ready to take advantage of any weakness which might develop.

The Johnson advisers also predict there will be no hurried break of Johnson-instructed delegates away from the senator after they have performed their obligations by voting for him on the first ballots.

Senator Johnson gave notice that he would take measures of reprisal against any delegate pledged to his support by results of primary election who did not "stick." He declared his opponents were using means of every kind to shake the allegiance of some of his supporters, mentioned "gold" and added that if any delegate broke away "I'll take his case to the people."

A story ran that if no nomination were reached up to the fifth ballot, Senator Johnson would lay his candidacy aside, if the convention would grant to him and Senator Borah unlimited time to discuss the candidacies and pre-convention campaign expenses of Wood and Lowden. The other angle of the story was that Senator Knox would be brought out as a candidate at that juncture.

FIGHTING REPORTED IN CRIMEA COUNTRY

London, June 10.—Anti-Bolshevik forces in the Crimea have begun an offensive movement which is reported from Moscow to have won initial successes. The Bolsheviks retrieved a part of the advantage lost, however, says the soviet official communique, which reads: "In the Crimean sector, after artillery preparations, the enemy started an advance along the entire front, fighting with tanks and armored cars and trains. At the beginning our troops were driven back near Perekop (at the neck of the Crimean peninsula) but, starting a counter attack, recaptured a great part of the lost ground."

Reports that Russian Bolshevik forces fighting on the northern Polish front have been forced to retire are confirmed in an official statement issued at Moscow.

HARDING TO CONTINUE STRUGGLE IS REPORT

Columbus, O., June 10.—That U. S. Senator Harding believes he has a chance to win the Republican presidential nomination and that he will stay in the fight to a finish was the belief expressed here today by State election officials when Frank Fauver, Columbus acting upon the authority of a former governor filed at Secretary of State Smith's office early today the declaration of former Governor Frank B. Willis as candidate for the Republican nomination to succeed Harding in the U. S. Senate.

SENIORS NUMBER 46

Tiffin, Ohio, June 10.—A class of 46 members was graduated from the Literary Department of Heidelberg University today. The class address was delivered by W. O. Thompson, President of Ohio State University who spoke on the subject "The Place of an Educated Person in a Democracy."

OATH-TAKING DELAYED

Mexico City, June 10.—The illness of Provisional President Adolfo de la Huerta prevented General Pascual Ortiz who will succeed General Salvador Alvarado as Secretary of the Treasury and General Antonio Villareal, who will be Secretary of Agriculture and Development from taking the oath of office today. Nothing definite has been announced officially regarding the new minister of Foreign Relations, Minister of the Interior or Minister of Communications, to succeed General Rubi,

DARK HORSE POSSIBILITY

REP. I. L. LENROOT, OHIO.

Irvine L. Lenroot, United States Senator from Wisconsin, is being mentioned in Chicago as the real "dark horse" in the event of the continuation of the deadlock which now exists. Lenroot is the candidate of the Senate. He was born of Swedish parentage in Superior, Wis., January 31, 1869, was educated in the public schools of Superior and later took a course in a business college. He was elected to Congress in 1908 and ten years later, 1918, was elected for his first term in the United States Senate.

BATTLE OF "OLD GUARD" AGAINST PROGRESSIVES ON

HARDING DEMANDS FREEDOM OF SEAS FOR PARTY PLATFORM

Ohio Senator Makes Ringing Declaration, Report.

Chicago, June 10.—Senator Harding sent a special message to ex-Congressman A. R. Johnson, the Ohio member of the committee on resolutions, urging him to make sure of a ringing declaration on the freedom of the seas, so that the way shall be open for the full development of the American merchant marine.

"America can not go on industrially," insists Senator Harding, "as a supplicant for freedom of the seas. We have built a merchant marine and we must operate it, and no other people can have a voice in writing our program."

Senator Harding told Mr. Johnson he did not care so much about the terms of opposition to the Wilson league of nations as he did the assurance of our own untrammelled action. "We may safely pledge," added Senator Harding, "American co-operation for peace in deliberate reflection, but we can have no league conceived for super-government."

Senator Harding issued this statement: "I am a candidate for president, and a real candidate. The senatorship is a local matter which doesn't concern me at this time. I'm playing the big game, and it's being played well. You can say I said so. It looks better for me this afternoon than it did this morning, and better this morning than yesterday afternoon."

Vigorous opposition to federal legislation similar to the Kansas industrial court measure, to unrestricted immigration and to the use of injunction proceedings in strikes, was contained in a set of "demands" which Samuel Gompers and Matthew A. Woll of the American Federation of Labor submitted to the resolutions committee.

Strife Centers Around Johnson and Lodge Sentiments.

COALITION CABINET WILL BE FORMED

Colisum, Chicago, June 10. — There was a grim fighting stuff in the air when the third session of the Grand Old Party pilgrims was called to order today by Chairman Henry Cabot Lodge, who is now provided with astute but pathetic little oaken table placed on the platform bridge to beat his stone hatchet gavel on.

As if scenting gunpowder the delegates poured in earlier than heretofore but every son and daughter of them seemed more bewildered than ever and were only mildly entertained today by the devices of the noise makers, both raucous and harmonious, and it doeth appear that these Republicans are going to get sweatily enthusiastic only when they are scuffling.

The same brilliant scene opened to the view of the spectator this morning, Republicans are a well set up lot—most of these delegates have a ready money atmosphere stamped all over them and Uncle Charlie Edward Russel, the economist says that two thirds of the entire wealth of the nation is directly or indirectly represented within this four walls.

But it isn't the spectacle that is interesting or important as the delegates gather—it's the play behind the scenes what fascinates imagination.

The battle of the "old guard" and the "progressives" is desperately on and before night delegates who permit others to do their thinking for them may have more distinctly heard their master's voices.

The great interlocking causes of the present strife are: 1. whether Hiram Johnson as represented by William E. Borah shall prevail with his sentiments as regards a peace treaty which is almost the complete opposite of President Wilson's negotiated peace and league of nations plan or whether Lodge's scheme of treaty reservations shall be the Republican campaign policy and this quarrel is as full of powder as a 13 inch shell; 2. whether the candidate will be Johnson, standing on his uncompromising platform or an old guard candidate, Lowden, Sproul, Knox, Harding or some dark horse, the deep dark of political night having settled upon Wood, who may show well on first ballots only and Hoover who may not show at all, and Butler, Poindexter and Coolidge who are now more memories than real aspirants in the success of Borah in winning his platform fight depend in considerable degree the success of Johnson.

OHIO SENATOR MAKES RINGING DECLARATION, REPORT.

Chicago, June 10.—Senator Harding sent a special message to ex-Congressman A. R. Johnson, the Ohio member of the committee on resolutions, urging him to make sure of a ringing declaration on the freedom of the seas, so that the way shall be open for the full development of the American merchant marine.

"America can not go on industrially," insists Senator Harding, "as a supplicant for freedom of the seas. We have built a merchant marine and we must operate it, and no other people can have a voice in writing our program."

JOHNSON ALLOWED TO GO OVER

Still another was that the "mysterious powers" had realized their inability to stop the swing to Hiram Johnson and had unwillingly passed the word along to let the Californian go over.

During the night the party managers decided to go ahead with the nominating speeches today, but there will be no balloting in all likelihood. There are enough speeches alone to occupy all of one day and anyhow, some of the men who are up town trying to break the deadlock, want to be in on the balloting. Nine hundred and some odd delegates voting without the presence of some of the party leaders is not to their liking. Something might go over.

And still another was that Wood would have so many votes on the first two ballots that only a political miracle could prevent enough uninstructed delegates swinging to his side to put him over.

There was a story for every candidate. One named his man and took his choice.

But casting aside the claims and the camouflage and disregarding the inside stories that lurked on every side, the one bald fact remained that there are still more than 500 uninstructed delegates in this convention and which way they will turn, no man can say with any degree of certainty.

The unprejudiced observers here—and there are few of them—admit that regardless of what may happen tonight or tomorrow, today the booms are stalemated. None of them is making any pronounced or visible headway against the stone wall of independent voting strength.

NO CHANGE TILL AFTER 2ND BALLOT

It is consistently predicted that they will make no such headway until two ballots have gone into political history. Then, it is expected, the tide will begin to run in some direction.

Hiram Johnson probably will be the first man nominated in the speech-making if the management decides to go ahead with the speeches today, when the roll of states is called. This will put it up to Charles S. Wheeler, of San Francisco, who will name Johnson.

The states between California and Illinois on the alphabetical list are expected to pass, and Congressman "Billy" Rodenburg will give the name of Illinois' favorite son, Gov. Lowden.

Kansas comes soon after and Gov. Henry J. Allen, will throw the name of General Wood into the fight.

THREATENED FIGHT OVER TREATY PLANK ON FLOOR OF CONVENTION BLOCKED

Agitation Begun For Reversal of Normal Order of Business in Not Waiting For Platform Drafters' Report Before Nominating Speeches.

NO LIKELIHOOD OF BALLOTING THURSDAY

No Appreciable Change In Status Of Leading Candidates —500 Uninstructed Delegates Prove Source Of Uneasiness.

Chicago, June 10.—The threatened fight over the league of nations on the floor of the Republican convention was blocked today by a compromise on a peace treaty plank reached between the "mild reservationists" and the "irreconcilables."

The compromise, it is regarded, will keep the ratification of the treaty, with or without reservations, absolutely out of the platform and will keep the fight off of the floor of the convention, according to information received by Senator Johnson.

The adoption of the plank from which all reference to ratification "with or without" reservations is eliminated followed the collapse of the fight by "mild reservationists" for ratification provisions with "proper reservations."

The agreement is regarded as a victory for Johnson, Borah and McCormick, leaders of the "irreconcilables" and Lodge, convention leader and other Republican leaders opposed to the "mild reservationists."

It was accepted as aforesaid, that a unanimous adoption of the compromise platform of the full resolutions committee would follow.

The fight of the league of nations continued to hold up the work of the Republican national convention today and forced a suspension until 4 p. m. The morning session lasted but 15 minutes.

Senator McCormick, of Illinois, one of the "irreconcilables" on the peace treaty brought the cheering news to the delegates that an agreement had been reached on the league of nations paragraph.

McCormick asked on behalf of the resolutions committee for a recess until 4 p. m.

There was a strong agitation early today to go ahead with the speeches nominating candidates, regardless of whether the platform builders were ready to report their findings.

This reversal of the normal order of business met some opposition among the candidates' managers, who felt that the effect of the oratory would be lost through sidetracking and shunting it around and permitting the league of nations instead of the candidate to become the paramount issue.

Night sessions for the remainder of the week became almost a certainty today if the convention is to complete its business and adjourn by Saturday.

Meanwhile, the managers of the various candidates took advantage of the long delay to bolster up weak spots where they could. The final drive for more than five hundred uninstructed, unpledged delegates who hold the balance of power in this convention once ended, began anew.

Undeterred by whispers of "bolts" by Hiram Johnson, Senator Borah and Senator McCormick, the Lowden and Wood supporters swung again into action with statements and claims of strength.

WOOD TO POLL OVER 300

It was confidently asserted by managers for General Wood that he would have considerably over 300 votes on the first ballot. Frank Hitchcock, floor manager of the Wood forces declared that the result already is settled, although with his customary reticence he declined to give figures.

Along Michigan Avenue during the night and early today, where the hundreds of delegates and visitors milled aimlessly around waiting for the breaking of the platform deadlock, could be heard "straight from the feed box" stories which nominated nearly every candidate.

There were whispered tales of secret conferences during the night which "settled" the whole business. John King, of Connecticut, who sits at the Chicago end of the wire that runs to Boies Penrose's bedside in Philadelphia, had just had a conversation with the "old master" which put the final stamp of approval on Philander C. Knox. That was one of them. There were a dozen like it, except for the name of the man who had been approved.

Another was that a group of powerful steel men and bankers, who included Elbert H. Gary, head of the steel corporation, and Leonard Raplogie had met in secret conference and turned thumbs down on the entire "big three"—Johnson, Wood and Lowden, and given their approval to Governor Wm. C. Sproul of Pennsylvania.

JOHNSON ALLOWED TO GO OVER

Still another was that the "mysterious powers" had realized their inability to stop the swing to Hiram Johnson and had unwillingly passed the word along to let the Californian go over.

During the night the party managers decided to go ahead with the nominating speeches today, but there will be no balloting in all likelihood. The Bolsheviks retrieved a part of the advantage lost, however, says the soviet official communique, which reads: "In the Crimean sector, after artillery preparations, the enemy started an advance along the entire front, fighting with tanks and armored cars and trains. At the beginning our troops were driven back near Perekop (at the neck of the Crimean peninsula) but, starting a counter attack, recaptured a great part of the lost ground."

Reports that Russian Bolshevik forces fighting on the northern Polish front have been forced to retire are confirmed in an official statement issued at Moscow.

HARDING TO CONTINUE STRUGGLE IS REPORT

Columbus, O., June 10.—That U. S. Senator Harding believes he has a chance to win the Republican presidential nomination and that he will stay in the fight to a finish was the belief expressed here today by State election officials when Frank Fauver, Columbus acting upon the authority of a former governor filed at Secretary of State Smith's office early today the declaration of former Governor Frank B. BATTLE OF "OLD GUARD" AGAINST PROGRESSIVES ON

HARDING DEMANDS FREEDOM OF SEAS FOR PARTY PLATFORM

Ohio Senator Makes Ringing Declaration, Report.

Chicago, June 10.—Senator Harding sent a special message to ex-Congressman A. R. Johnson, the Ohio member of the committee on resolutions, urging him to make sure of a ringing declaration on the freedom of the seas, so that the way shall be open for the full development of the American merchant marine.

"America can not go on industrially," insists Senator Harding "as a supplicant for freedom of the seas. We have builded a merchant marine and we must operate it, and no other people can have a voice in writing our program."

Senator Harding told Mr. Johnson he did not care so much about the terms of opposition to the Wilson league of nations as he did the assurance of our own untrammelled action.

"We may safely pledge," added Senator Harding, "American co-operation for peace in deliberate reflection, but we can have no league conceived for super-government."

Senator Harding issued this statement: "I am a candidate for president, and a real candidate. The senatorship is a local matter which doesn't concern me at this time. I'm playing the big game, and it's being played well. You can say I said so. It looks better for me this afternoon than it did this morning, and better this morning than yesterday afternoon."

Vigorous opposition to federal legislation similar to the Kansas industrial court measure, to unrestricted immigration and to the use of injunction proceedings in strikes, was contained in a set of "demands" which Samuel Gompers and Matthew A. Woll of the American Federation of Labor submitted to the resolutions committee.

Strife Centers Around Johnson and Lodge Sentiments.

COALITION CABINET WILL BE FORMED

Colisum, Chicago, June 10.—There was a grim fighting stuff in the air when the third session of the Grand Old Party pilgrims was called to order today by Chairman Henry Cabot Lodge, who is now provided with astute but pathetic little oaken table placed on the platform bridge to beat his stone hatchet as on.

As if scenting gunpowder the delegates poured in earlier than heretofore but every son and daughter of them seemed more bewildered than ever and were only mildly entertained today by the devices of the noise makers, both raucous and harmonious, and it doeth appear that these Republicans are going to get sweatily enthusiastic only when they are scrapping.

The same brilliant scene opened to the view of the spectator this morning, Republicans are a well set up lot—most of these delegates have a ready money atmosphere stamped all over them and Uncle Charlie Edward Russel, the economist says that two thirds of the entire wealth of the nation is directly or indirectly represented within this four walls.

But it isn't the spectacle that is interesting or important as the delegates gather—it's the play behind the scenes what fascinates imagination.

The battle of the "old guard" and the "progressives" is desperately on and before night delegates who permit others to do their thinking for them may have more distinctly heard their master's voices.

The great interlocking causes of the present strife are: 1. whether Hiram Johnson as represented by William E. Borah shall prevail with his sentiments as regards a peace treaty which is almost the complete opposite of President Wilson's negotiated peace and league of nations plan or whether Lodge's scheme of ratification shall be the Republican campaign policy and the quarrel is as full of powder as a 13 inch shell; 2. whether the candidate will be Johnson, standing on his uncompromising platform or an old guard candidate, Lowden, Sproul, Knox, Harding or some dark horse, the deep dark of political night having settled upon Wood, who may show well on first ballots only and Hoover who may not show at all, and Butler, Poindexter and Coolidge who are now more memories than real aspirants in the success of Borah in winning his platform fight depend in considerable degree the success of of Johnson.

WOOD TO POLL OVER 300

It was confidently asserted by managers for General Wood that he would have considerably over 300 votes on the first ballot. Frank Hitchcock, floor manager of the Wood forces declared that the result already is settled, although with his customary reticence he declined to give figures.

Along Michigan Avenue during the night and early today, where the hundreds of delegates and visitors milled aimlessly around waiting for the breaking of the platform deadlock, could be heard "straight from the feed box" stories which nominated nearly every candidate.

There were whispered tales of secret conferences during the night which "settled" the whole business. John King, of Connecticut, who sits at the Chicago end of the wire that runs to Boies Penrose's bedside in Philadelphia, had just had a conversation with the "old master" which put the final stamp of approval on Philander C. Knox. That was one of them. There were a dozen like it, except for the name of the man who had been approved.

Another was that a group of powerful steel men and bankers, who included Elbert H. Gary, head of the steel corporation, and Leonard Raplogie had met in secret conference and turned thumbs down on the entire "big three"—Johnson, Wood and Lowden, and given their approval to Governor Wm. C. Sproul of Pennsylvania.

JOHNSON ALLOWED TO GO OVER

Still another was that the "mysterious powers" had realized their inability to stop the swing to Hiram Johnson and had unwillingly passed the word along to let the Californian go over.

During the night the party managers decided to go ahead with the nominating speeches today, but there will be no balloting in all likelihood. There are enough speeches today to occupy all of one day and anyhow, some of the men who are up town trying to break the deadlock, want to be in on the balloting. Nine hundred and some odd delegates voting without the presence of some of the party leaders is not to their liking. Something might go over.

And still another was that Wood would have so many votes on the first two ballots that only a political miracle could prevent enough uninstructed delegates swinging to his side to put him over.

There was a story for every candidate. One named his man and took his choice.

But casting aside the claims and the camouflage and disregarding the inside stories that lurked on every side, the one bald fact remained that there are still more than 500 uninstructed delegates in this convention and which way they will turn, no man can say with any degree of certainty.

The unprejudiced observers here—and there are few of them—admit that regardless of what may happen tonight or tomorrow, today the booms are stalemated. None of them is making any pronounced or visible headway against the stone wall of independent voting strength.

NO CHANGE TILL AFTER 2ND BALLOT

It is consistently predicted that they will make no such headway until two ballots have gone into political history. Then, it is expected, the tide will begin to run in some direction.

Hiram Johnson probably will be the first man nominated in the speech-making if the management decides to go ahead with the speeches today, when the roll of states is called. This will put it up to Charles S. Wheeler, of San Francisco, who will name Johnson.

The states between California and Illinois on the alphabetical list are expected to pass, and Congressman "Billy" Rodenburg will give the name of Illinois' favorite son, Gov. Lowden.

Kansas comes soon after and Gov. Henry J. Allen, will throw the name of General Wood into the fight.

A statement written on the budget is to the effect that none of the \$550,000 school building bonds voted this spring will be issued this year. It also bears a statement that \$35,000 has been borrowed from the Citizens' National Bank, which will take all the money going to the school district by the settlement to pay.

Xenia's city budget has not yet been filed but a number of the taxing districts already have their financial statements for the year with the auditor. All are asking for excessive amounts it is said. The budget commission composed of the county auditor, treasurer and prosecuting attorney will meet the first Monday in August to make up the work of making the financial allowances for the years.

DOLLAR DAY PROVES SUCCESS; SMALL BOY IS SEEN WITH FLAG

A small boy marched up the street carrying an American flag.

"Why the flag?" inquired a passer by.

"Cause, this is Dollar Day," replied the youth, as he marched away with the stars and stripes over his shoulder.

The belief seems to be growing in Xenia that Dollar Day is a national holiday, and from the crowds on the street hursday, one would think that they really had been declared a holiday by the government.

Strangers coming into the city, who were accustomed to the quiet of the streets on the morning, thought the calendar had slipped up a few weeks on them, along with the new time, and that the Fourth of July was at hand.

Merchants reported large crowds and lively buying, the majority of the Dollar Day bargains being snapped up quickly. Crowds were on the streets early and the stores prospered well all over the city. The bargains were plentiful but went quickly.

Appearance Thursday afternoon indicated that the day would be one of the biggest ever staged in the history of the Dollar Day in this city, which has recently come to be a semi-annual event.

DOLLAR DAY PROVES SUCCESS; SMALL BOY IS SEEN WITH FLAG

A small boy marched up the street carrying an American flag.

"Why the flag?" inquired a passer by.

"Cause, this is Dollar Day," replied the youth, as he marched away with the stars and stripes over his shoulder.

The belief seems to be growing in Xenia that Dollar Day is a national holiday, and from the crowds on the street yesterday, one would think that they really had been declared a holiday by the government.

Strangers coming into the city, who were accustomed to the quiet of the streets in the morning, thought the calendar had slipped up a few weeks on them, along with the new time, and that the Fourth of July was at hand.

Merchants reported large crowds and lively buying, the majority of the Dollar Day bargains being snapped up quickly. Crowds were on the streets early and the stores prospered well all over the city. The bargains were plentiful but went quickly.

Appearance Thursday afternoon indicated that the day would be one of the biggest ever staged in the history of the Dollar Day in this city, which has recently come to be a semi-annual event.

The telegram is from the Erie, Pa. Chamber of Commerce and requests that the local organization wire Ohio delegates to vote for Sproul in the nomination balloting. The Xenia Chamber of Commerce is absolutely non-political and ignored the wire, which however shows the efforts being made to land the nomination for the Pennsylvania candidate who is rated as a "big corporation" man.

LAXATIVE for Aged People

THE BANE of old age is constipation. The bowels become weak and unable to perform their functions without aid. For this purpose only the mildest and gentlest laxative should be used. The use of harsh cathartics aggravates the trouble and makes the constipation worse. Chamberlain's Tablets are a favorite with people of middle age and older on account of their gentle action.

OUR WILL BEING AFFECTED MORE BY BUSINESS THAN POLITICS.

Politics used to attract more attention than anything else, and influential politicians were looked upon as the most important men in the country.

Today business is accepted as more important than politics, and our great business leaders are regarded as out-ranking political leaders.

Politics was king yesterday.

Business is king today and promises to be king for many a day.

Didn't President Wilson, after having his knowledge deepened and his vision broadened by personal association with the foremost minds in Europe, declare that the course of the world was hereafter to be shaped, not by diplomacy, but by the activities of the counting house?

In other words, diplomacy and politics are now the children of business, not the parents, not the rulers of business.

What has brought about this change? Why did business formerly excite so little public interest and politics so much? Why do the activities of our Napoleons of business appeal more to the popular imagination than the activities of even our best-known politicians? Why do we take keener interest in what our Garys and our Schwabs do than in what our Senate and House leaders say?

Why do the most responsible newspapers in the United States now devote more space, day in and day out, to business than to politics? It was not always so.

The answer to these questions is that our lives, our conditions, our well-being, our prosperity are more affected by the state of business than by politics. Whether we can make money or whether we lose money; whether we can find profitable employment or have to go idle; whether the country enjoys good times or suffers bad times is determined by events in the business world. Every man, woman and child in America derives his or her living from some form of business activity. The school teacher, the doctor, the astronomer, each and all are dependent upon business for their living, just as much as are factory workers, store clerks, railroad employees and farmers.

Since self-preservation is the first law of human nature, it is entirely logical that we should give due measure of attention to that which affords us our living, our bread and butter, our sustenance.

VAST IMPORTANCE OF THE PERSONALITY OF THE CHICAGO NOMINEE.

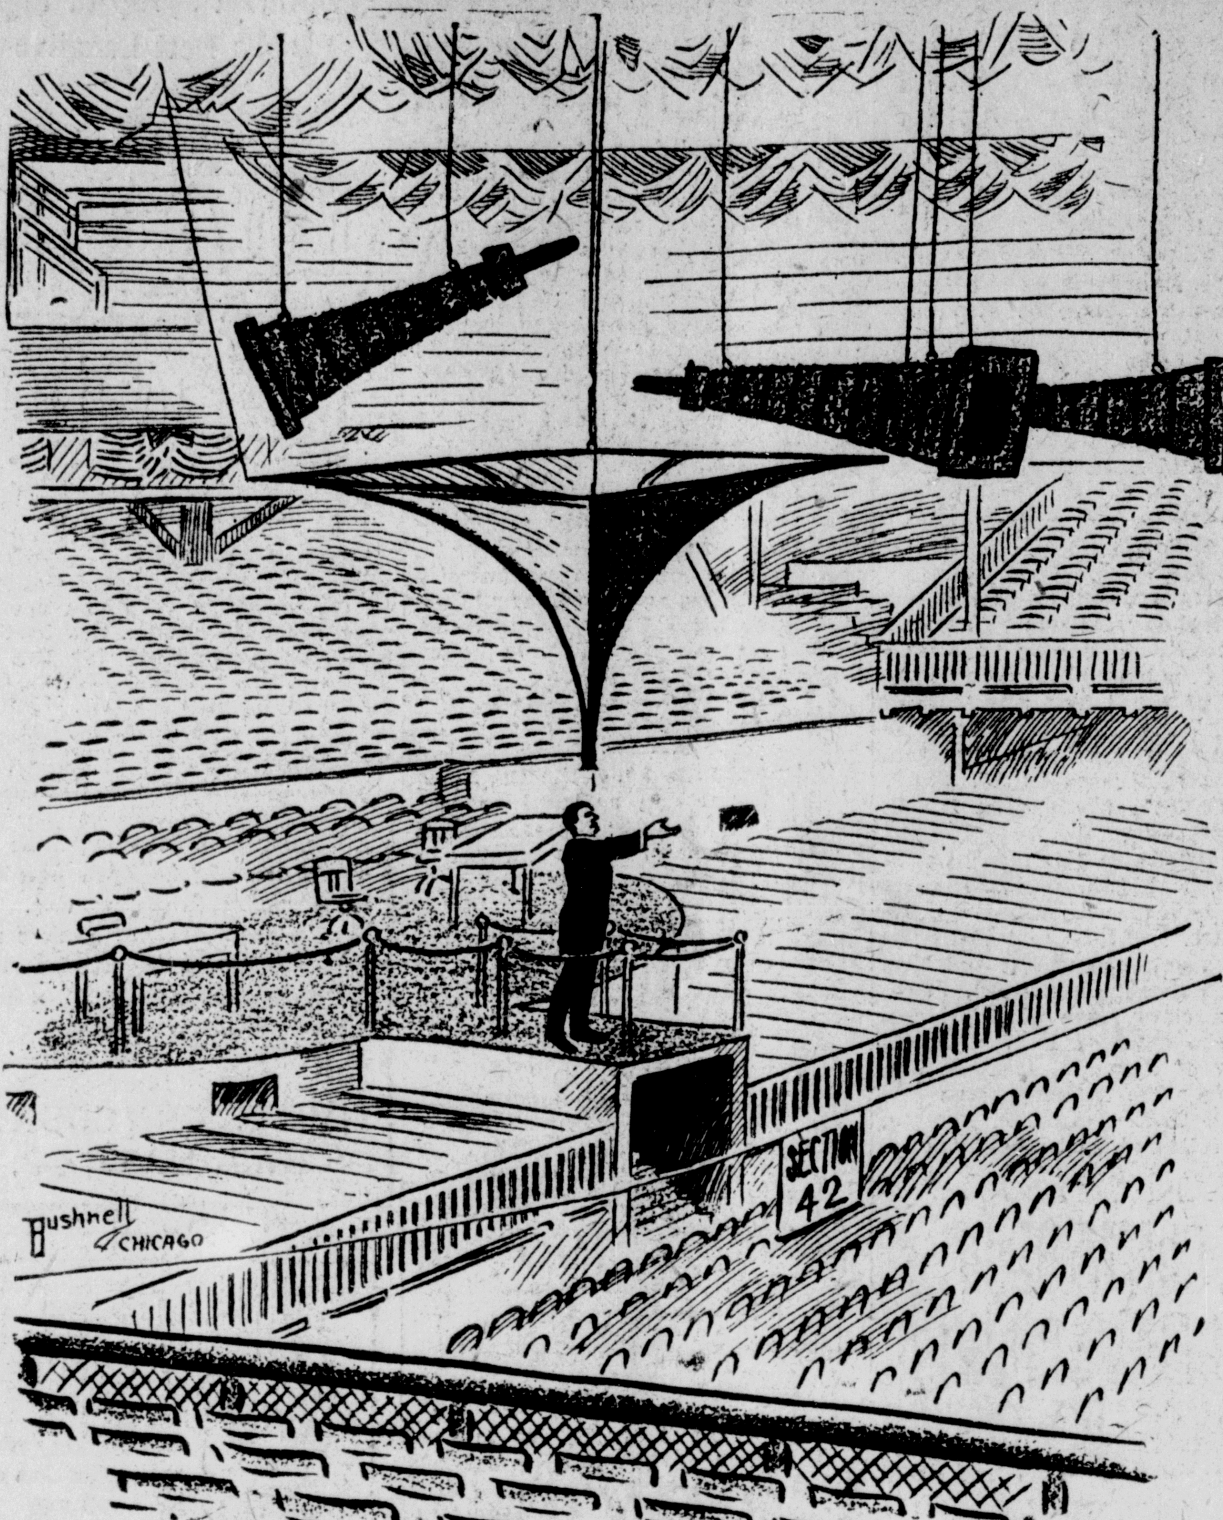

It is quite possible for the Chicago Convention to inflict very real harm upon this nation and upon a vast number of individuals in it. It may name a candidate for whom the sane, safe and responsible Republicans will find it most difficult to vote. It may capitulate to buncombe, bullying and noise. It may put untrustworthy forces in power. It may open the way to "four more years of Democracy."

There are occasions, of course, when a party plank may mean a great deal; as when the Republicans courageously emblazoned "gold" on their standard in 1896. But these are only the exceptions that emphasize the rule.

Personality is of far more importance than platforms. And the Convention decides between personalities and the groups they represent. This is its big job; and the way in which it does it will affect legislation and administration, perhaps in very serious fashion, for years to come.

The Convention delegates should always keep in view the fact that the Democrats will meet and nominate three weeks later. They should also remember that, under the new conditions of widespread political independence in this country, there are not enough immovable Republicans to elect a President. They must get the votes of thousands of men who could be driven out of the Republican party by a bad nomination. And they may be very sure that the astute managers of the Democratic party, who seem to have dumped Wilson definitely, will select a candidate likely to attract the very elements whom the nomination in Chicago may have loosened temporarily in their allegiance to the Republican banner.

ORATORY AT G.O.P. MEET WILL GO OVER DELEGATES' HEADS; NEW DEVICE CARRIES IT THRE SO ALL MAY HEAR SPEAKERS

Because of the size of the Coliseum at Chicago, used for the Republican convention, and the babble of voices from over 12,000 delegates, it is impossible for an orator, however powerful his lungs may be, to make himself heard beyond the first few rows of the auditorium. To overcome this experts on acoustics worked for days in the hall to perfect a device which conveys the speaker's words to all corners of the room. The device consists of a huge metal megaphone inverted over the speaker's place. This carries the sound upward to the small ends of long wooden megaphones hung horizontally and pointed to different parts of the auditorium. These wooden megaphones are approximately twenty-five feet long.

XENIA FOUNDRY READY TO START WORK IN WEEK; HOUSING SITUATION SERIOUS

"With everything moving as a big problem to the official, smoothly as it is at present, we will be ready to start work here a week from next Monday."

So said W. M. Huston, president of the Xenia Foundry and Machine Company, Xenia's new \$50,000 gray iron casting company when interviewed Wednesday while with sleeves rolled up, he personally with Superintendent E. Pester was supervising the dumping of 55 tons North West street.

"The building is almost in shape now and the cupola has arrived. When it is up we will be almost ready for work. We have plenty of sand, as we are unloading one car now and there is another car in the principal trouble we are having now is to find houses for our employees. That will hold us back more than anything else. We will have to bring experienced molders in here and there are absolutely no houses for them to rent."

The problem of securing houses for their help is one that has been bothering officials of the company since coming here. Neither Mr. Huston nor Mr. Pester have been able to find houses for their own families yet, and they will bring a number of expert molders who also must be housed. The situation is presenting

DINNER STORIES

The talk in the smoking room of a well-known club turned on the present epidemic of burglaries. "Some time ago," said one of the members, "I fitted up in my hall

an electric horn—took it from an old car of mine, as a matter of fact—and ran the connecting cord up to my bedside. My wife woke up one night to say that she could hear burglars downstairs. I listened. Sure enough they were there. I pressed the button of the electric horn. Instantly there waited through the house the hoarse cry given out by the horn."

The member paused for a moment, and a smile broke over his face. "I never heard the burglars get in," he said; "but a man who'd been deaf since birth could have heard them making their getaway."

Two travelers met in the smoking room of a hotel and at once commenced talking shop.

"How's business? Getting many orders?" asked the stout man.

"More than I can handle," said the short man. "How is it with you? Had any orders lately?"

"Well, business is pretty good," said the stout man. "I haven't had an order for a year and a half, but expect to get one next spring."

At this point the curiosity of a bystander got the better of him. Calling the short man aside he asked: "Who's your stout friend?"

"A traveler," was the brief reply. "Well, he certainly has puzzled me. What's his line?"

"Suspension bridges."

YOUR COMPLEXION CAN BE MADE WHITE, SOFT AND YOUTHFUL

By the Use of the BLACK and WHITE Beauty Treatment.

Every woman wishes to appear beautiful. The savage maiden tattoos her skin, fixes rings in her nose and uses other crude ornaments to make herself more attractive. An example of present-day beauty among civilized women is a soft velvety skin and a radiant complexion. To improve your complexion, you should not use anything that hides your faded pimply, blotchy skin. Such applications last only a few hours and are injurious to the delicate skin tissue in many cases.

You can make your complexion beautiful by removing the faded, dark, sallow, blotchy skin with the BLACK and WHITE Beauty Treatment, which consists of a creamy ointment and soap. This beauty treatment will not injure the skin and is easy to apply. Before retiring thoroughly cleanse the skin with BLACK and WHITE Soap; then mix and apply BLACK and WHITE Ointment according to the directions.

The BLACK and WHITE Beauty Treatment will also remove pimples, sun-freckles, insect bites, skin blotches, liver spots and other ugly blemishes of the skin. Remember that the BLACK and WHITE Beauty Treatment is different from other cosmetics in that it removes—does not cover or hide—the blemishes.

You can buy BLACK and WHITE Ointment and Soap at all good drug stores for 25c each a package, or the manufacturers will send both post-paid on receipt of 50c.

You can get a free sample, literature and a BLACK and WHITE Birthday and Dream Book, if you will clip and mail this advertisement to BLACK and WHITE, Box 913, Memphis, Tenn.

A GLAD WORLD.

This world's so fine and dandy that life should be a grin; there's always sunshine handy for those who'd wade therein. As cheerful as a colt is, I do my daily toil, there always is a pout for every human boil. I brood not lest disaster of life should ruin make; there is a mustard plaster for every human ache. If life, at any juncture, seems desolate and grim, and hope receives a puncture, then run her on the rim; and laugh at Old Man Sorrow, and bet your Sunday lid that things will run tomorrow well as they ever did. I have the giddy habit of giving grief a slap; if there's a smile I nab it, and paste it on my map. The little tinhorn troubles that drive some men insane, to me are vagrant bubbles, they're empty things and vain. And when full grown afflictions come down in cataracts, I look on them as fictions that masquerade as facts. I fire them in a hurry, I bid them loop the loops; I say to them, "For worry I do not care three whoops." For joy's the line I trade in, the goods in which I deal; it is the stuff I wade in, to back my daily spiel.

Kills Pesky Bed Bugs P. D. Q.

Just think, a 35c box of P. D. Q. (Pesky Devils Quietus), makes a quart, enough to kill a million bedbugs, roaches, fleas or beetles and stops future generations by killing the eggs and does not injure the clothing.

Liquid fire to the bedbugs is what P. D. Q. is like. Bedbugs stand as good chance as a snowball in a justly famed heat resort. Patent spot free in every package of P. D. Q. to enable you to kill them and their egg nests in the cracks.

Look for the devil's head on every box then you'll have what Hospitals have found to be the best insecticide known to science. Special Hospital size 12.50 makes five gallons—contains 2 spouts—either size at your druggist or sent prepaid upon receipt of price by the Owl Chemical Co., Terre Haute, Ind. Genuine P. D. Q. is never peddled.

Sold by Sayre & Hemphill, D. D. Jones and other leading druggists.

PAINS NEARLY DOUBLED ME UP

Nothing Helped Me Until I Took Lydia E. Pinkham's Vegetable Compound.

Wyandotte, Mich.—"For the last four years I have doctored off and on without help. I have had pains every month so bad that I would nearly double up. Sometimes I could not sweep a room without stopping to rest, and everything I ate upset my stomach. Three years ago I lost a child and suffered so badly that I was out of my head at times. My bowels did not move for days and I could not eat without suffering. The doctor could not help me and one day I told my husband that I could not stand the pain any longer and sent him to the drug-store to get me a bottle of Lydia E. Pinkham's Vegetable Compound and threw the doctor's medicine away. After taking three bottles of Vegetable Compound and using two bottles of Lydia E. Pinkham's Sensitive Wash I could do my own housework. If it had not been for your medicine I don't know where I would be today and I am never without a bottle of it in the house. You may publish this if you like that it may help some other woman."—Mrs. MARY STENDER, 129 Orange St., Wyandotte, Mich.

SOL STEALS MARCH ON RANKS OF CITY'S ANTI-HEAT FORCES

Old John S. Heat, kicked up his O'Sullivan yesterday, and knocked the aplomb, grace and carriage right out from under perspiring citizens of this garden spot of the world.

Old Sol made Heinz and his 57 varieties look sick when he began exploiting various kinds, degrees and stages of canned and freshly laid heat upon an uncomplaining world. The exuberant mercury exuberated out of the top of the tube like a leak in new garden hose, and according to the brave and courageous, reached 90 degree mark.

About 7:30 a storm started brewing, if black clouds and lightning are any indication of a storm, but the expected downpour failed to materialize and sweltering citizens were doomed to disappointment. The day was the hottest that has been uncaned yet. The threatened rainfall here fell in Dayton, where the temperature dropped off, and the rain was a welcome relief.

DRUGGISTS! You Can Guarantee This Prescription

So great has been the success of Plough's Prescription C-2223 in relieving thousands of people suffering with Rheumatism, Gout, Sciatica, Lumbago and some conditions of a neurologic nature, and also other troubles caused by poisons in the blood, known as Eczema, Sores, Pimples, and so on, that the manufacturers authorize you to refund the price of two \$1.50 bottles in case satisfactory benefit is not experienced by your customers.

There is no "red tape" connected with this guarantee. When you are assured that the claim for refund is a bona fide one, you give back the price which your customer paid you, and report the case to us. A check for \$3.00 is promptly sent you.

Here are the conditions under which this guarantee is made: Your customer, or the patient, must take consecutively two \$1.50 bottles. Four trial size bottles do not contain the quantity found in the regular or large size; therefore the guarantee cannot apply to purchases of the trial size. Directions must be followed carefully and suggestions as to diet and habits complied with as far as possible. If, after your customer takes two \$1.50 bottles as above, no relief is experienced—sufficient to justify a continuance of the treatment—upon presentation of the empty bottles, you are to return the purchase price, \$3.00, and report the refund, giving customer's name and address and any other information that may be of interest. You will be quickly reimbursed at the same price, \$3.00.

Of course there are chronic cases of Rheumatism and Gout which require the use of several bottles, but even in such cases, two large bottles should bring about a change for the better.

Prescription C-2223 is a real blood purifier. It stands above all other remedies as an alternative of great power. It restores normal functions to those organs or tissues which are not naturally performing their full work. It changes diseased conditions into conditions of health.

You can recommend it to your customers and be sure that they will be satisfied, for if no benefit is experienced, you can give their money back.

Before taking Prescription C-2223, it is necessary that the liver should be made active and the bowels regulated. 2223 Liver Pills are different from most cathartics because they act gently and do not sicken or gripe. For best results in taking Prescription C-2223, the use of these tonic liver pills is desirable. They sell for 25c a package.

Your jobber can supply you with Prescription C-2223 and the 2223 Liver Pills, or you can write the Plough Chemical Co., Memphis, Tenn., for information about discount and terms.

RECIPES FOR A DAY.

Onion Loaf.—Put through food grinder any preferred nut meat sufficient to make a cup. Moisten slightly about a half loaf of stale bread which has been broken in pieces; add to nuts; also add one-half teaspoon powdered mixed herbs, one-half teaspoon salt, a dash of paprika, three-fourths cup finely chopped onion; mix all to a paste with two tablespoons margarine dissolved in one-half cup hot cream.

Work well, form into a loaf, lay in a greased baking pan, bake for about an hour, basting occasionally with melted margarine. Serve hot with a cream sauce or sliced cold with mayonnaise.

Mexican Jelly Salad.—Soak two and one-half tablespoons granulated gelatin in one-half cup cold water, one-third cup vinegar, juice of a lemon, one-third cup sugar, one-half teaspoon salt, stir until gelatin is dissolved, cool; when beginning to set add one cup canned wax beans, one pimento cut in strips. Mold, chill, serve on lettuce leaves with mayonnaise.

Stuffed Prunes.—One pound of large prunes, peanut butter, shredded cocoanut. Soak prunes over

night. Boil until soft enough to remove pits, being careful not to break the fruit. Dry out a little and fill with peanut butter or English walnuts if preferred. Roll in shredded cocoanut. Set to dry. The children enjoy this very much, especially the ones who carry their lunch to school.

Sauce.—Two cups tomatoes, one-half cup finely cut onion, one-half cup cut carrot, two teaspoons salt, one-half cup cut green peppers, two tablespoons butter substitute, two tablespoons flour. Put the onion, carrot, peppers and butter into a frying pan and fry until tender. Add the tomato and salt; cook for five minutes, mash through a strainer; return to fire and add the flour, which has been mixed with cold water, and boil for five minutes. Serve with or on loaf.

GOOD CHICKEN RECIPE.

Chicken, Cuban Style.—Singe the chicken and then cut as for fricaseeing. Wash and place in a saucepan and add two quarts of water, three onions, the well cleaned root of the celery stalk.

Bring to a boil and cook slowly until tender. Let the chicken cool in the liquid and when cool remove the breast and divide the meat into four fillets. Wash one-half cup of rice in plenty of water and then place two and one-half cups of boiling water in a saucepan and add two onions, chopped fine, one green pepper, chopped fine, and then well-washed rice. Cook slowly until the rice is tender and the water is absorbed. Season and then make two and one-half cups of brown gravy, using the chicken stock.

Place the cooked rice in a casserole and lay the fillets of the breast of chicken on the rice. Pour the gravy over it and then place in a hot oven for twenty minutes. This amount will serve four people, and add the two wings for a fifth portion.

Mrs. Rush had an upstairs girl at last, but it made very little difference in my work, or in my hours of work, because Miss Ailene—as I had been told to call her—demanded every leisure moment.

"If you won't give me a maid, she'll have to do double duty," I heard her tell her mother.

PAINS NEARLY DOUBLED ME UP

Nothing Helped Me Until I Took Lydia E. Pinkham's Vegetable Compound.

Wyandotte, Mich.—"For the last four years I have doctored off and on without help. I have had pains every month so bad that I would nearly double up. Sometimes I could not sweep a room without stopping to rest, and everything late upset my stomach. Three years ago I lost a child and suffered so badly that I was out of my head at times. My bowels did not move for days and I could not eat without suffering. The doctor could not help me and one day I told my husband that I could not stand the pain any longer and sent him to the drug-store to get me a bottle of Lydia E. Pinkham's Vegetable Compound and threw the doctor's medicine away. After taking three bottles of Vegetable Compound and using two bottles of Lydia E. Pinkham's Sensitive Wash I could do my own housework. If it had not been for your medicine I don't know where I would be today and I am never without a bottle of it in the house. You may publish this if you like that it may help some other woman."—Mrs. LARRY STENDER, 129 Orange St., Wyandotte, Mich.

SOL STEALS MARCH ON RANKS OF CITY'S ANTI-HEAT FORCES

Old John S. Heat, kicked up his O'Sullivan's yesterday, and knocked the aploomb, grace and carriage right out from under perspiring citizens of this garden spot of the world.

Old Sol made Heinz and his 57 varieties look sick when he began exploiting various kinds, degrees and stages of canned and freshly laid heat upon an uncomplaining world. The exuberant mercury exuberated out of the top of the tube like a leak in new garden hose, and according to the brave and courageous, reached 90 degree mark.

About 7:30 a storm started brewing, if black clouds and lightning are any indication of a storm, but the expected downpour failed to materialize and sweltering citizens were doomed to disappointment. The day was the hottest that has been uncaned yet. The threatened rainfall here fell in Dayton, where the temperature dropped off, and the rain was a welcome relief.

RECIPES FOR A DAY.
Onion Loaf.—Put through food grinder any preferred nut meat sufficient to fill a cup. Moisten slightly about a half loaf of stale bread which has been broken in pieces; add to nuts; also add one-half teaspoon powdered mixed herbs, one-half teaspoon salt, a dash of paprika, three-fourths cup finely chopped onion; mix all to a paste with two tablespoons margarine dissolved in one-half cup hot cream.

Work well, form into a loaf, lay in a greased baking pan, bake for about an hour, basting occasionally with melted margarine. Serve hot with a cream sauce or sliced cold with mayonnaise.

Mexican Jelly Salad.—Soak two and one-half tablespoons granulated gelatin in one-half cup cold water, one-third cup vinegar, juice of a lemon, one-third cup sugar, one-half teaspoon salt, stir until gelatin is dissolved, cool, when beginning to set add one cup canned wax beans, one pimento cut in strips. Mold, chill, serve on lettuce leaves with mayonnaise.

Stuffed Prunes.—One pound of large prunes, peanut butter, shredded coconut. Soak prunes over

night. Boil until soft enough to remove pits, being careful not to break the fruit. Dry out a little and fill with peanut butter or English walnuts if preferred. Roll in shredded coconut. Set to dry. The children enjoy this very much, especially the ones who carry their lunch to school.

Sauce.—Two cups tomatoes, one-half cup finely cut onion, one-half cup cut carrot, two teaspoons salt, one-half cup cut green peppers, two tablespoons butter substitute, two tablespoons flour. Put the onion, carrot, peppers and butter into a frying pan and fry until tender. Add the tomato and salt; cook for five minutes, mash through a strainer; return to fire and add the flour, which has been mixed with cold water, and boil for five minutes. Serve with or on loaf.

GOOD CHICKEN RECIPE.

Chicken, Cuban Style.—Singe the chicken and then cut up for fricasseeing. Wash and place in a saucepan and add two quarts of water, three onions, the well cleaned root of the celery stalk.

Bring to a boil and cook slowly until tender. Let the chicken cool in the liquid and when cool remove the breast and divide the meat into four fillets. Wash one-half cup of rice in plenty of water and then place two and one-half cups of boiling water in a saucepan and add two onions, chopped fine, one green pepper, chopped fine, and then well-washed rice. Cook slowly until the rice is tender and the water is absorbed. Season and then make two and one-half cups of brown gravy, using the chicken stock.

Place the cooked rice in a casserole and lay the fillets of the breast of chicken on the rice. Pour the gravy over it and then place in a hot oven for twenty minutes. This amount will serve four people, and add the two wings for a fifth portion.

AN EMBARRASSING OCCURRENCE

Chapter 34

I had been at Mrs. Rush's just three weeks. Ailine was to give a small dinner dance, and she had demanded that I assist in serving the midnight supper.

"The butler is getting cranky, and he'll be leaving if he hasn't more help," Mrs. Rush had explained.

"Very well," I had said. I was so tired that a little more work could make no difference. I had become apathetic in a way. I wonder if under the circumstances it is to be wondered at I now went about my duties mechanically. Mrs. Rush had an upstairs girl at last, but it made very little difference in my work, or in my hours of work because Miss Ailine—as I had been told to call her—demanded every leisure moment.

"If you won't give me a maid, she'll have to do double duty," I heard her tell her mother.

"Your father is grumbling about expense as it is. You can do very well without a maid at your age."

"Zena will have to do what is necessary then."

"Very well! But be careful not to put too much upon her, Ailine. I have seen a look on her face once or twice when you ordered her to wait upon you that I didn't like. If she leaves us I don't know where we'll find another maid. And she is really obliging."

"Oh, she won't leave! Not many people hire a girl who has no references, who doesn't take her day off, and who wears such lovely boots and

underwear. There's something mysterious about her. She is hiding from someone, or has done something that she is afraid she'll be arrested for if she goes out, or something."

"What an imagination you have, Ailine! Remember what I say. Don't ask too much of her."

The night of the party I attended the young ladies when they came. I did for them just what I so many times had done for me. I took their wraps, saw that they had any toilet necessities they wished helped them rearrange their hair if it had become mussed, and all the little things a flock of girls usually demand when making themselves lovely as guests.

They were a bright, attractive lot of girls and had I not been so tired helping Ailine to dress, arrange the rooms, etc. I would have enjoyed hearing their bright chatter. It was like a bit out of my own life come back.

I tried to rest until I should be needed later in the evening, but something made me uneasy. I felt a premonition that something was going to happen to me, something unpleasant. I tried to laugh at myself, to dispel the feeling, but it wasn't any use. The depression grew instead of diminishing.

It was nearly 1 o'clock when Mrs. Rush said I was needed. The supper was a sort of buffet affair, and I was to see the young guests were properly served.

At first I could distinguish no one in particular, excepting Mrs. Rush, and who wears such lovely boots and

jumble of light dresses, pretty arms and shoulders, and the black coated boys with whom they were chatting so gaily.

Then as they drew nearer the tables I heard a gasp—then:

"Zena Stewart! Where have you been?" and Tony Deland stood looking down on me.

I had heard of the wish that the floor would open and swallow one up, but I never had experienced it until then. It only I could have disappeared! I tried to get away, but not only was I hemmed in by the guests, but Tony in some way had possessed himself of my hand and seemed determined not to let go.

"Please let me go, Tony, and please don't say any more," I begged, just as Mrs. Rush came toward us, her face black and threatening. Before she could say a word, Tony said:

"Miss Stewart is an old friend of mine, Mrs. Rush."

"She is now my servant. Please allow her to fulfil her duties." I don't think she meant to be unkind. She had no way of knowing who or what I was. My position had been, and she probably considered Tony had been making friends with someone beneath him. The look on his face was almost laughable, even under the circumstances.

"Yes, Tony," I said, so low none but he could hear. "I am a maid here. Please don't tell the rest." Then I turned, and as well as I could helped to wait upon the group of boys and girls who kept casting curious, slighting looks at me.
